

Sumi's Journey — Test Plan

Scope & Assumptions: Tests cover all core game mechanics across BootScene, MenuScene, Level 1, Level 2, Level 3, Level 4, Level 5, Level 6, Crane, cutscenes, and game over. It is assumed the game runs in Opera (chrome or firefox) on a standard desktop. All assets load correctly via XAMPP local server. Negative and boundary tests are included to verify edge cases.

Test Item	Input / Player Action	Expected Output	Actual Output	Result	Remarks
BOOT & LOADING					
All assets load on startup	Launch game via localhost	No 404 errors in console, all images and audio load	All assets loaded correctly	Pass	Checked through console.
Registry initialised correctly	Launch game for first time	secrets registry sets firstPlay=true, all recipe flags = false	Registry initialised as expected	Pass	Checked through console.log statments.
MenuScene loads after boot	Assets finish loading	Game transitions automatically to MenuScene	MenuScene loaded	Pass	
MENU SCENE					
Menu background displays	Open game / return to menu	Title background, birds, clouds, and home image display correctly	Background displayed correctly	Pass	
Start button launches game	Click Start	BeginningCutScene starts	CutScene started	Pass	
Secret popup on second playthrough	Complete bad ending, return to menu	Popup message appears indicating a secret has been unlocked	Popup displayed correctly	Pass	showMessage flag triggers popup
Popup only shows once	Return to menu a second time after hitting the home icon or completing the selected level.	Popup does not appear again	Popup not shown again	Pass	showMessage resets after first display
Level select shows stars on completed levels	Complete level 1, open level select	Level 1 shows star icon, levels 2 and 3 remain unstarred	Stars displayed correctly	Pass	
BEGINNING CUTSCENE					
First playthrough shows panel 1 original intro	Click start	Original intro image displays with fade in	Correct panel shown	Pass	firstPlay=true
Second playthrough shows alternate intro	Click start after completing bad ending	Alternate intro panel displays	Alternate panel shown	Pass	firstPlay=false
Next button advances to panel 2	Click Next on panel 1	Screen fades to black, panel 2 fades in	Transition works correctly	Pass	
Panel 2 auto-transitions to Level 1	Wait 4 seconds on panel 2	Screen fades to black, Level 1 starts	Level 1 loaded after delay	Pass	
PLAYER MOVEMENT/CONTROLS					
Move right	Hold right arrow key	Sumi moves right, runningRight animation plays	Player moves right correctly	Pass	
Move left	Hold left arrow key	Sumi moves left, runningLeft animation plays	Player moves left correctly	Pass	
Idle animation facing right	Release keys after moving right	idleRight animation plays	Idle animation plays correctly	Pass	
Idle animation facing left	Release keys after moving left	idleLeft animation plays	Idle animation plays correctly	Pass	
Jump from ground	Press up arrow on ground	Player jumps upwards	Player jumps correctly	Pass	
Cannot jump mid-air	Press up arrow while already jumping	No second jump occurs	Double jump correctly prevented	Pass	body.onFloor() check
Left world boundary	Move left to world edge, x = 0	Player stops and cannot go further	Player cannot go further left than x = 0	Pass	setCollideWorldBounds(true)
Right world boundary	Move right to world end	Player stops at max world width	Player cannot go further left than the world width boundary	Pass	
Sumi 'meows' (plays meow sound) when M is pressed	Press M key	Random meow sound plays, 3 second cooldown to prevent audio overlap	Meow plays with cooldown, alternating between two different meow audios	Pass	
Meow cooldown, audio only plays after 3 seconds	Spam M key repeatedly	Only one meow plays until cooldown expires	Blocked spamming meow audio	Pass	isMeowing flag
LEVEL 1 — THE COUNTRYSIDE					
Level fades in with chapter title	Level 1 starts	Title appears 'Chp 1: Beyond the Peaks', then both the fade and title fade slowly after 2.5s.	Fade and title work correctly	Pass	
Background music fades in	Level 1 starts	Level 1 music begins at volume 0 and slowly turns up to 0.1	Music fades in correctly	Pass	
Parallax scrolling works	Move player right	Far background scrolls slower than mid, mid slower than front platforms	Parallax scrolling correctly	Pass	

Bird Zone 1	Player enters bird zone 1	Bird spawns with a chirp, moves leftward from the right of the screen. Three total.	Bird chirps, spawns, flies left	Pass	
Bird Zone 2	Player enters bird zone 2	Bird spawns with a chirp, moves leftward from the right of the screen. Three total.	Bird chirps, spawns, flies left	Pass	
Bird collision costs a life	Player touches bird	Life count decreases by 1, knockback plays, hiss sound	Life deducted correctly, sound plays, player knocked back	Pass	
Raven NPC dialogue (first playthrough)	Approach raven NPC, close enough and press M.	Speech bubble shows 'default' dialogue	Default dialogue shown	Pass	firstPlay=true
Raven NPC dialogue (second play)	Approach raven NPC on second playthrough, close enough and press M.	Speech bubble shows secret hint dialogue	Secret dialogue shown	Pass	firstPlay=false
Secret 1: meow near nest bird	Press M key near nest bird	Bird flies away revealing recipe piece behind it and plays a bird sound	Secret mechanic triggers, bird chirps	Pass	birdFlying flag
Recipe piece collection	Walk over recipe piece	Pickup sound plays, recipe 1 marked collected in registry, icon lights up	Recipe collected and saved	Pass	secrets.level1=true
Recipe icon hidden on first play	Play level 1 for first time	Recipe HUD icons are not visible	Icons correctly hidden	Pass	firstPlay check
Recipe icon visible on second play	Play level 1 on second playthrough	Recipe HUD shows 3 icons, collected ones fully lit	Icons show correctly	Pass	
Frog NPC checkpoint dialogue	Reach frog NPC at end of level	Dialogue bubble shows frog NPC default lines	Checkpoint dialogue plays	Pass	
Level advances to Level 2 after talking with Frog NPC in first play.	Frog dialogue shows then after 6.5 seconds it fades into Level 2	Screen fades, Level 2 starts	Level 2 loads correctly	Pass	
Home icon returns to menu (second play)	Click home icon	Music fades, screen fades, MenuScene starts	Home navigation works	Pass	Only visible after firstPlay
Lose all 3 lives — game over	Get hit by bird 3 times	GameOverScene starts, passing 'Level1' as previousScene	Level 1 starts correctly after user presses retry	Pass	
Negative: interact outside NPC range	Press M away from any NPC	Nothing happens, no dialogue triggered	Correctly no interaction	Pass	overlap check required
Negative: re-enter bird zone after activation	Walks back into bird zone 1 after it fires	No birds will spawn again (preventing overlapping and constant spawning)	No birds spawn once the initial 3 spawned and deployed	Pass	
Negative: if player doesn't scare off bird with M and tries to collect secret	Player walks into the secret bird.	Player gets hurt, secret piece not collected, lose 1 life, gets knocked back	Loses 1life, get's knocked back and does not get the secret	Pass	collision detection working
Negative: Collect the recipe and die	Collect recipe, lose all lives before reaching frog NPC or dies	Registry level1 does not get set to true. Has to collect piece again	Registry level1 stays false upon collection, does not set it. Player dies and has to collect again	Pass	
Negative: Trigger bird fly, press M again at nest	Press M at nest after bird already flew	Nothing happens (birdFlying flag blocks it)	Bird chirps and flies away, does not retrigger	Pass	
Negative: Press M before NPC dialogue ends	Press M at raven/frog, then immediately again	Dialogue re-triggers properly, only disappears after 6 seconds, and player can re-trigger again after.	Guard prevents spamming re-triggering the delayed timer. Re-triggers after 6 seconds.	Pass	
LEVEL 2 — THE SWAMP					
Level 2 fades in with title	Level 2 starts	Fade in from black, chapter title displays then hides	Fade and title correct	Pass	
Level 2 music plays	Level 2 starts	Level 2 song fades in	Music correct for level	Pass	
Lily pad warning shake	Stand on lily pad	Lily pad shakes and plays rustle sound before disappearing	Warning shake and sound plays correct	Pass	
Lily pad disappears after warning	Wait on lily pad after shake	Lily pad disappears, player falls if still on it	Lily pad removal correct	Pass	
Falling into the void after lily disappears	Fall off lily pad into void	World bounds checked, player dies, plays the death sound and the level restarts	Fall death works correctly	Pass	
Rest platform between lily pads	Reach mid-sequence rest platform	Player can stand safely with no disappearing behaviour	Rest platform stable	Pass	
Frog enemy jumps up and down from lily pad	Player in frog zone	Frogs jump upward on timed pattern with croak sound	Frog pattern correct	Pass	
Frog contact costs a life and knockback	Player touches jumping frog	Life deducted, knockback, hiss sound	Life deducted correctly	Pass	
Willow NPC when player is close and presses M (first play)	Reach Willow NPC with sign	Willow displays default dialogue on first play through	Willow default dialogue correct	Pass	
Willow NPC when player is close and presses M (Second play through)	Reach Willow NPC with sign second playthroughs	Willow displays secret dialogue on second playthrough	Willow secret dialogue correct	Pass	

Secret 2: Brother NPC dialogue triggers	Player stands on special lil pad (slightly larger than the other ones), stays until after the shaking is done	Sleeping frog NPC jumps off stump with sound, revealing secret and displays dialogue.	Brother jumps with a sound, and displays dialogue and reveals secret recipe piece	Pass	
Recipe piece collectible in level 2	Collect recipe piece in level 2	Pickup sound, registry level2=true, icon lights up in HUD	Recipe saved correctly, sound plays	Pass	
Negative: interact outside NPC range	Press M away from any NPC	Nothing happens, no dialogue triggered	Correctly no interaction	Pass	overlap check required
Negative: lily pad disappears mid-jump on special lily	Jump off lily pad as it begins shaking	Player lands safely on next platform, secret does not get revealed, lily disappears	Edge case works, only reveal if player waits long enough on special lily	Pass	
Boundary: 0 lives remaining in level 2	Lose all 3 lives in level 2	GameOverScene launches with previousScene='Level2'	Game over correct scene key	Pass	
Negative: Press M key away from all NPCs	Press M away from any NPC	No speech bubble appears	No NPC speeches were shown	Pass	
Negative: Try to collect recipe before puzzle solved	Walk to stump and jump onto without triggering the special lily	No recipe collected	Guard for disabling recipe body for collision before triggering special lily	Pass	
Negative: After triggering special lily pad try again and re-trigger it	Stays on special lily, triggers brother jumping event, step back and stay on special lily again	Special lily stays special lily, does not fall when re-triggered again. But brother event does not retrigger.	Brother only jumps once, does not continue to jump and retriggering the dialogue.	Pass	
Negative: Collect the recipe and die	Solve the secret and collect recipe	Registry secret does not update because player did not reach the checkpoint npc	Registry level2 stays false because checkpoint npc not reached. Has to re-obtain secret again	Pass	
Negative: Listen for croaks outside of croak zones	Stand outside of croak zone	Does not hear the sound of croaking	Not croaking heard. Only when stepping into is the croak heard	Pass	
LEVEL 3 — THE CITY					
Level 3 fades in with title	Level 3 starts	Fade in, title 'Chp 3: Concrete and Shadows' appears then hides	Title and fade correct	Pass	
Level 3 music plays	Level 3 starts	Level 3 song fades in	Correct music plays	Pass	
Security drone patrols left and right	Player sees drone	Drone moves back and forth along the orange line	Patrol movement correct, moving back and forth at specified path	Pass	
Detection line visible	Security drone active	A visible light beam/line extends from the drone	Detection line renders	Pass	
Player caught in detection beam	Walk into drone detection light	Life deducted, hiss plays, and player knockedback	Detection triggers correctly, hiss plays and player gets knockback	Pass	
Hiding behind box blocks detection	Stand behind box while drone passes	No life deducted, player not detected	Hide mechanic works	Pass	line-of-sight overlap check
Moving platform works	Step onto moving platform	Player rides platform as it moves	Moving platform correct	Pass	
Jug	Player runs into jug	Jug moves but not enough to get pushed off, but player keeps pushing and jug falls	Hazard works correctly, jug falls when pushed off the edge	Pass	
Holo NPC checkpoint dialogue, default	Reach holo NPC at mid point press M	Holo Drone displays default dialogue on first play	Holo drone displays default dialogue (first play)	Pass	
Boundary: all 3 lives lost in level 3	Take 3 hits in level 3	GameOverScene starts with previousScene='Level3'	Correct scene key passed	Pass	
Secret 3: static drone.	Player pushes jug onto drone.	Jug falls onto drone, break sound plays, drone breaks and falls. Reveals secret piece	Final piece revealed after drone breaks	Pass	
Negative: Press M key away from all NPCs	Press M away from any NPC	No speech bubble appears	No NPC speeches were shown	Pass	
Negative: Stand motionless against jug after touching it	Push jug just a little and stand next to it	Jug doesn't get pushed or move	Jug stays still and doesn't move	Pass	
Negative: Try to collect recipe before puzzle solved	Player jumps down onto the platform to recipe. Hidden behind the wall.	Player gets hurt by the drone guarding the wall. Gets knocked back potentially falling into the void.	Player gets hurt, the hiss plays, player cannot collect recipe	Pass	
Water drip can only be heard when player is in drip zone	Players goes into drip zone	Hears the sound of the drip and the animation can be seen	Player steps into drip zone, dripping sound can be heard and animation can be seen	Pass	
Negative: Water dripping cannot be heard outside drip zone	Player leaves drip zone	Drip sound can no longer be heard	No drip sound heard	Pass	
Negative: Press M at Moon Flakes on second play without all recipes	Interact with Moon Flakes on second playthrough, missing a recipe	Goes to Moon Flakes in level 3 after first playthrough, brings player back to main menu	Player interacts with Moon Flakes, player brought back to main menu	Pass	
ENDINGS & CUTSCENES					
Bad ending triggers when not all recipes collected	Finish level 3 without all 3 recipe pieces.	EndingCutScene starts, only triggers once.	Bad ending triggered. Only triggers once.	Pass	collectAll=false
Bad ending panel 1 displays	EndingCutScene starts	Bad ending wide image panel 1 shows with fade in	Panel 1 correct	Pass	

Bad ending advances through panels	Click Next on each panel	Each subsequent panel slides in correctly	Panel transitions correct	Pass	setX offset used
Bad ending returns to menu	Wait on final panel	After 5 seconds, MenuScene starts automatically	Menu return correct	Pass	
showMessage flag set after bad ending	Complete bad ending	registry showMessage=true so menu shows popup next load	Flag set correctly and pop up shows on return to main menu	Pass	
Good ending triggers when all recipes collected	Finish level 3 with all 3 recipe pieces	GoodCutScene starts when player reaches one of the checkpoint npcs depending the level last collected in.	Good ending triggered	Pass	collectAll=true
Good ending panel displays	GoodCutScene starts	Good ending image shows with Ending Two title card	Panel correct	Pass	
Good ending returns to menu	Click Next on good ending panel	Fade to black, MenuScene starts	Menu return correct	Pass	
Negative: good ending only with ALL 3 pieces	Collect only 2 of 3 recipe pieces, finish game	Returns to main menu, does not play any ending.	Endings kept behind guards, does not play good ending or bad ending since user already saw	Pass	collectAll check
GAME OVER SCENE					
Game over animation plays	Trigger game over from any level	Game over sprite animation loops correctly	Animation plays	Pass	
Retry button restarts correct level	Click Retry after dying in Level 1	Level 1 restarts, not Level 2 or 3	Correct level restarted	Pass	previousScene passed correctly
Retry button restarts correct level	Click Retry after dying in Level 2	Level 2 restarts, not Level 1 or 3	Correct level restarted	Pass	previousScene passed correctly
Retry button restarts correct level	Click Retry after dying in Level 3	Level 3 restarts, not Level 1 or 2	Correct level restarted	Pass	previousScene passed correctly
Collected recipes persist after retry	Collect recipe in Level 1, die in Level 2, retry	Recipe piece from Level 1 is still marked collected	Registry persists through retry	Pass	registry survives scene restart
Lives reset on level restart	Click Retry	Lives reset to 3 for the restarted level	Lives reset correctly	Pass	
AUDIO					
Level music fades in on start	Start any level	Music volume rises from 0 to target over 2500ms	Fade in correct	Pass	
Music stops on home icon click	Click home icon mid-level	Music fades out and stops before MenuScene loads	Music stops correctly	Pass	
Pickup sound on recipe collection	Collect any recipe piece	Pickup audio plays once	Sound plays correctly	Pass	
Hiss sound on player hit	Player takes damage	Hiss audio plays	Sound plays correctly	Pass	
Fall sound on falling death	Player falls into void in any level	Cat falling sound plays	Fall sound correct	Pass	
Croak sound on frog activity	Frog enemy active in Level 2, goes into croak zone	Croak audio plays	Croak sound correct	Pass	
Rustle sound before lily pad falls	Stand on lily pad	Rustle sound plays and lily pad falls if it's not the special lily	Warning sound correct, lily falls	Pass	
Drone break sound on detection	When player pushes jug onto drone, break sound plays	droneBreak audio plays	Sound plays correctly	Pass	
Assignment 3 Test Plan Section					
Menu Scene					
DLC button appears	Player completes all three levels from A2.	DLC button appears	DLC button appears correctly	Pass	
DLC levels appear in level select	Player finished/completes all three DLC levels 4-6	DLC levels button appear in level select	DLC buttons 4, 5, 6 all appear in level select	Pass	
Level select buttons bring player to that level	Player clicks level select and clicks a level	Button brings player to the level they clicked on	The level player selected starts	Pass	
Negative: If player does not finish all three levels (1-3) DLC button doesn't appear	Player does not finish all three levels (1-3) restarts the game or reloads	DLC button does not appear	DLC button does not appear	Pass	
Negative: DLC levels button does not appear in the levels select when player did not complete all DLC levels	Player comes back to main screen and did not complete all DLC levels in sequence	DLC levels button does not appear in levels select	DLC buttons did not appear in levels select	Pass	
Background changes when player finished all DLC levels in sequence for the first time	Player clicks the DLC and plays through all three levels	Main Menu background changes	Main Menu background changed	Pass	
Level 4					
Fades into level 4 and shows player in a cage and the chapter title	Player clicks DLC button and clicks next.	Chapter 4 title appears, player appears in a cage	Chapter 4 title shows, player is in a cage	Pass	
After level title fades, players cage swings slightly without input	Player starts level 4	Sumi is in cage, swinging slightly without input	Sumi starts swinging slightly in cage without input	Pass	

Swing is only allowed in left and right pattern.	Player clicks left and right arrow keys to swing.	Player presses left to swing left, then has to press right to swing right.	Player swings when pressing left and swings right when pressing right.	Pass	
When player hits the left wall, cage breaks and drops Sumi onto the floor	Player keeps swinging and hits the left wall	Cage breaks, screen shakes, and Sumi is now on the lab floor.	Cage breaks upon impact, screen shakes, and Sumi is now on lab floor	Pass	
Electrical panel showing dialogue	Player move over to the left side and interacts with the electrical panel by pressing E	A textbox and dialogue appears upon pressing E	dialogue box and text appears when pressed E	Pass	
Player can pick up an item by pressing F. Picking up clippers	Player goes to the clipper on the floor and picks it up by pressing F.	Player Presses F to pick up clippers, shows in inventory	Player pressed F over clippers, item is now in inventory.	Pass	
Player interacts with the electrical panel by pressing E with the clippers. Door opens.	Player picks up the clippers (F), goes back to electrical, presses E, the door opens.	Player has clippers in inventory, presses E over electrical panel, door opens	Player picked up clippers, presses E over electrical panel, door opened	Pass	
Player interacts with the access terminal on the far right in lab room.	Player presses E to interact with the access terminal	Text and dialogue box shows up	Player presses E over terminal and text and dialogue box shows up	Pass	
Player picks up access card and interacts with the terminal	Player picks up the access card (F), goes to terminal and presses E	Player has access card, presses E over terminal, the door opens.	Player has access card, presses E over terminal, the door opened	Pass	
Player moves through past a blue-lit area, get's jumpscared and changes forms	Player walks to the right over a blue-lit area	Player gets jumpscared and forced into dog form. Text and dialogue boxes show.	Player passes by blue lit area, gets jumpscared and morphed into a dog. Text and dialogue box shows.	Pass	
In dog form player can now see scent trail. In cat form they can't see it.	Player walks to the locked door on the right next to the A3 door as dog or cat form.	Player can see scent trail as dog form but not as cat form.	Scent trail disappears in cat form and reappears in dog form	Pass	
In dog form follow scent trail and player can press E to open the vent they found	Player follows scent trail as dog and presses E.	Player presses E over the vent they found, vent opens and reveals itself.	Player in dog form presses E over vent, vent opens and reveals itself	Pass	
Negative: Player in cat form cannot see scent trails and cannot open the vent	Player is in cat form over the vent cover	Player cannot open and reveal the vent in cat form	Player presses E over vent and it does not open or reveal	Pass	
Negative: Player cannot go through the vent in dog form.	Player opens the vent and tries to drop down into the vent	Player is in dog form, tries to drop down into the vent but is too big to fit through.	Player is in dog form, cannot drop down into vent	Pass	
Player triggers cutscene when jumping out of vent	Player goes into vent and comes out the otherside	Player jumps out of vent and a cutscene plays.	Player jumps out of vent and a cutscene plays	Pass	
Negative: Player in cat form cannot pick up garbage bag	Player is in cat form and tries to press F	A text and dialogue appears, shows short tug animation for cat	Player presses F over garbage, shows tug animation and text box and text.	Pass	
Player interacts with disposer	Player pressed E over disposer	Form specific dialogue appears	Presses E as cat or dog shows different dialogue	Pass	
Player disposes garbage	Player goes to disposer while carrying garbage bag	garbage gets disposed and cutscene plays	Player presses E over disposer with garbage as dog, cutscene plays	Pass	
Scent trail shows after garbage is disposed	Player is in dog form and sees scent trail in the garbage room	Scent trail shows up after disposal	Player sees scent trail after disposal	Pass	
Negative: scent trail disappears in cat form	Player switches to cat form after the cutscene	Player does not see scent trail	Scent trail disappears in cat form and reappears in dog form	Pass	
Sticky notes 1 and 2	Players presses E over either of the sticky notes	Shows a text box and text	Text box and text appears	Pass	
Player puts in sequence (main sequence)	Player interacts with the sequence buttons	Player interacts with the sequence buttons in the correct order. A cutscene shows and screen flashes red.	Player interacters with sequence buttons correctly. Cutscene shows up screen flashes red	Pass	
Player types in the secret sequence	Players inputs the secret sequence	Player inputs the secret sequence and the antidote appears	Player types in the secret sequence, antidote shows up	Pass	
Negative: Player inputs the wrong main sequence	Player types in wrong sequence or random sequence	Indicators flash red three times and cutscene does not play	Indicators flashed red three times, no cutscene shown	Pass	
Negative: Player inputs the wrong secret sequence	Player enters the wrong secret sequence.	Indicators flash red three times and secret antidote does not appear	Indicators flashed red three times and antidote did not appear.	Pass	
Negative: Player does not collect antidote but does the secret puzzle	Player inputs the code but does not collect the secret antidote	Registry for antidote 1 does not get set to true	Registry for antidote 1 did not get set to true	Pass	
Player triggers next scene, Level 5	Player runs down to the far right under the disposal and runs to right wall	Player stops, fades out and starts next scene (level 5)	Player starts next scene upon reaching right wall	Pass	
Level 5					
Fades in and displays title	Player starts up level 5	Fades into level 5 and displays chapter title	Fades into level 5 title and displayed chapter title	Pass	
Player walks into blue-lit area and animation	Players walks into blue-lit area and an animation plays	Animation plays when player walks into the blue lit-area	Animation played when player walked into blue-lit rea	Pass	
Bioscanner terminal + Cat	Player interacts with the scanner as a cat	Bio scanner rejects the player and does not open the door	Bio scanner did not open the door	Pass	
Bioscanner terminal + Dog	Player interacts with the scanner as a dog	Bio scanner rejects the player and does not open the door	Bio scanner did not open the door	Pass	
Bioscanner terminal + Human	Player interacts with the scanner as a human	Bio scanner accepts the player and opens the door	Bio scanner opened the door	Pass	
Dialogue shows up for every item in Cat form in level 5	Player presses E for every interactable	Text and dialogue box shows up for every interactable	Text and dialogue box shows up for every interactable	Pass	
Dialogue shows up for every item in Dog form in level 6	Player presses E for every interactable	Text and dialogue box shows up for every interactable	Text and dialogue box shows up for every interactable	Pass	
Dialogue shows up for every item in Human form in level 7	Player presses E for every interactable	Text and dialogue box shows up for every interactable	Text and dialogue box shows up for every interactable	Pass	
Human form accessing PC	Player interacts with the PC in the office (E)	PC/email overlay shows up upon interaction	PC/email overlay showed up upon interaction	Pass	
Negative: Sends wrong email file	Player picks the wrong email file to send	Text will show saying file size it too large and no cutscene plays.	Text showed that file size was too large, no cutscene played	Pass	
Sends the correct file	Player sends the correct email file and clicks send	Player sends the correct email file and clicks send. Cutscene plays and Printer door opens.	Player sent the correct email file and clicks send, cutscene played, and ptner door now open	Pass	
Negative: Player interacts with the printer without paper	Player presses E on the printer in every form	Shows only text and dialogue box	Shows only text and dialogue boxes	Pass	

Player picks up paper and goes to printer puzzle	Player picks up the crumpled paper and interacts with the printer	Cutscene plays upon interaction, player can't move. Wrench and access card shows up	Cutscene plays, player can't move, wrench and access card appear	Pass	
Negative: Player interacts with the tank without a wrench	Player presses E over the tanks in every form	Shows only text and dialogue box	Showed only text and dialogue box	Pass	
Player with wrench and tank in lab room	Player has a wrench in inventory and interacts with the tank in the lab	Tank breaks and scientist runs over to the tank after dropping off access card	Tank breaks, scientist drops the access card and comes over to the tank	Pass	
Dual module and access cards	Player brings access cards down to the dual access card module.	Player inserts one card at a time, lights turn green when card is inserted	Player inserts one card and light turns green	Pass	
Player has dual access cards insert, plays next scene	When both cards are inserted	D3 door opens and fades out to black and starts next scene	D3 door opened and faded to black and starts next scene	Pass	
Negative: Only one card inserted	Player only inserts one card	D3 does not open and does not start next scene	D3 door did not open and the next scene did not play	Pass	
Vent in far right of the lab	Player walks all the way to the right wall in the lab	Vent reveals itself to player	Vent revealed it self to player	Pass	
Negative: Player does not touch the right wall in the lab	Player walks close enough to right wall in lab	Vent does not show	Vent is not revealed to player	Pass	
Negative: Player tries to go in vent as a human / dog	Player morphs into a dog or a human	Player won't be able to go into the vent	Player could not get into the vent as human for dog	Pass	
Vent and mouse	Player walks into the vent and jumps up onto the second section of the vent	A mouse appears once player jumps up into the second section	Mouse appeared when player jumped up onto the second section of the vent	Pass	
Mouse and scientist interaction	Player brings the mouse (F) to the scientist and interacts with him (E)	Mouse jumps onto scientist and scientist throws the antidote out of shock	Mouse jumped onto scientist and scientist dropped the antidote	Pass	
Negative: Player completes the mouse puzzle but does not collect the antidote	Player does the mouse and scientist puzzle but does not collect the antidote	Registry for antidote 2 does not get set to true	Registry for antidote 2 did not get set to true	Pass	
Level 6					
Level fades in and shows chapter title and level	Start level 6	Level fades in and shows chapter level and title	Level fades in, show chapter and the level	Pass	
Level 6 rain	Rain starts when level starts	Rain showing and raining down looping sprite	Shows rain and loops the rain sprite	Pass	
Camera pans out slowly then fades into level	Starts level 6 and waits	Camera will pan out to reveal a bigger picture then start level 6	Camera panned out and revealed a bigger picture then starts level 6	Pass	
NPC dialogue	Player interacts with NPC in all three forms	Shows form specific text and dialogue box	Showed form specific text and dialogue box	Pass	
Lockers and special locker	Player interacts with the lockers using E.	Player can open each locker. Upon opening special locker a chef hat is revealed	Player opens all lockers, special chef hat appears in the special locker	Pass	
Negative: Player opens all normal lockers	Player does not open the special locker	Chef hat does not show	No chef hat seen	Pass	
Chef hat and kitchen NPC	Player walks into the chef as a human with the chef hat in inventory	Chef allows player to walk through and displays a dialogue text box and text	Chef allowed player to walk through, showed text and text box	Pass	
Negative: Chef hat + cat form	Player walks into the chef as a cat with the chef hat in inventory	Chef denies entry and knocks player back, temporarily disables movement	Chef denied entry to the kitchen and knocked player back. Movement disabled temporarily	Pass	
Negative: Chef hat + dog form	Player walks into the chef as a dog with the chef hat in inventory	Chef denies entry and knocks player back, temporarily disables movement	Chef denied entry to the kitchen and knocked player back. Movement disabled temporarily	Pass	
Ring the bell	Player rings the bell €. Cutscene shows captain waking up and unlocking bunker room	Player rings the bell in any form and captain wakes up and comes down to the kitchen	Player rung the bell, captain is seen waking up and unlocked the bunker door	Pass	
Beds 1-6	Player interacts with all beds	Show text and dialogue box	Upon interaction text and dialogue boxes show	Pass	
Special bed (bed 3)	Player is in dog form and interacts with bed 3	Access card reveals itself	Access card appears on interaction as a dog	Pass	
Negative: Cat or human form interacting with bed	Player is in cat or human form and interacts with the bed	Access card does not show	Access card did not appear	Pass	
Access card and control room door	Player goes to the control room door and interacts with it when access card is in inventory	Access room door opens	Access room door opened	Pass	
Negative: Access card and control room door	Player interacts with the access room door without access card	Access room door does not open	Access room did not open	Pass	
Bookshelf + human	Player interacts with the bookshelf in the control room	Bookshelf slides and reveals a safe	Bookshelf slide and revealed a safe	Pass	
Negative: Book shelf + cat	Player interacts with the bookshelf in the control room as a cat	Bookshelf does not move and just shows text and dialogue box	Bookshelf did not move and showed a dialogue box and text	Pass	
Negative: Book shelf + dog	Player interacts with the bookshelf in the control room as a dog	Bookshelf does not move and just shows text and dialogue box	Bookshelf did not move and showed a dialogue box and text	Pass	
Player interacts with the control panel	Player interacts with the control panel to the left in the control room	Fades into the next scene, the crane mini game	Faded into the next scene, the crane mini game	Pass	
Negative: Safe interactive puzzle	Player enters the wrong secret code	Shows access denied and clears the code that player entered and safe doesn't open	Shows access denied, code clears, and safe did not open	Pass	
Safe interactive puzzle	Player enters the correct secret code	Shows access granted, exits the safe interface and shows the antidote	Showed access granted, exits the safe interface and shows the antidote	Pass	
Negative: Player completes the safe puzzle but does not collect the antidote	Player does the safe puzzle but does not collect the antidote	Registry for antidote 3 does not get set to true	Registry for antidote 3 did not get set to true	Pass	
Crane					
Fades into the crane scene	Player starts crane scene	Fades into the scene	Faded into the scene	Pass
